Directions to the Ranch:

From Montgomery on I-65 South: Take exit 164 onto Hwy. 31. Proceed 1/4 mile and then left onto Wasden Rd. Drive 4.4 miles and turn right onto Mason Rd. Drive 2.7 miles and then turn left onto Cruise Rd. The farm is located 1/4 of a mile on the right.

From Ft. Deposit on I-65 North: Take exit 158 onto Co Rd. 6. Proceed 1 mile to Co. Rd. 26. Turn right and travel 3 miles, then left onto Mason Rd. Drive 2.7 miles and then turn left onto Cruise Rd. The farm is located 1/4 of a mile on the right.

From Selma on Hwy 80: Turn right on Co. Rd. 37. Drive 1.3 miles and turn left onto Mason Rd. Drive 2 miles and turn right on Cruise Rd. The farm is located 1/4 of a mile on the right.

Welcome!

Welcome to CK Cattle's Ninth Headquarters Sale,

What a great time to be in the cattle business! Calf prices are at an all-time high. We are having a great grass year. While everyone may not have had as much timely rain as we have, there does not appear to be widespread drought in the southeast. We just got 2.5 inches of rain in September which is unusual considering it was not associated with a hurricane. Cows are starting to calve and our biggest problem is driving around in knee high grass.

This cattle market has a different feel than the previous cattle market boom. Instead of everyone getting in the business like they did in year 2014-2015, we still have producers dispersing. How many of you have heard the comment, "If prices get that high again, I am selling out!". That is what is happening, although I feel they are too early.

Cull cow prices have not kept pace with calf prices and with current inventory and still ongoing herd reduction, I feel we have several years of strong prices. The difference between calf prices according to quality and marketing is huge right now. Now may be the time to increase/improve your herd while you have a great market ahead of you.

As good a summer as we have had, we did have an extended period of very hot weather. We were reminded that cattle with hair do not work here! We are faced with the challenge of keeping our numbers (EPD's and \$ Values) current and yet having cattle that can deal with our environment. Our cattle must deal with the heat and humidity of the southeast to excel, just like they must do on your place.

I am currently midway through my year as President of the Alabama Cattlemen's Association. It has been an honor to represent our industry in the state. We are fortunate to have a strong staff and it has been a pleasure to work with them. Being a member of the state and national cattlemen's associations is vastly important with our dwindling producers and fewer ag related politicians. Thanks for considering CK Cattle.

Blessed to be a Cattleman.

Chuck and Katie Madaris

The CK CATTLE Headquarters Sale Information

Schedule:

Thursday, October 26th

All day Cattle On Display at the Farm

Friday, October 27th

11:30 am Complimentary Lunch

Noon CK Cattle Headquarters Sale

Sale Staff:

Tommy Barnes, Auctioneer	334-462-4004
Cracker Johnson, <i>Special Assignment</i>	352-535-5320
Mark Sims, <i>Special Assignment</i>	580-595-0901
Will Mayfield, <i>Special Assignment</i>	931-309-8892
Richard Dyar, <i>Special Assignment</i>	816-390-6601
Shawn Gray, Am Angus Assn.	352-425-9326

Special Guests:

Erin Beasley, Exec. VP Alabama Cattleman's Assn.
Dick Farrow and Scott Garrett, *Mid State Stockyards*
Jimmy Sealy, *Alabama Livestock Auction*
Jerry Etheridge, *Elite Livestock Sales*

Accommodations:

Hampton Inn	334-280-9592
Holiday Inn	334-288-3858
Fairfield Inn	334-281-6882
Comfort Suites	334-676-2576
Best Western	334-280-0306

Air Travel:

Birmingham-Shuttlesworth Int. Airport is approximately 1 hr. and 30 minutes to the farm and is serviced by most major carriers. Montgomery Airport is 5 miles from the farm. CK Cattle will gladly pick up anyone flying into Montgomery. Please call in advance to arrange pick up.

Trucking:

Tom Snell	580-374-4168
Brian Wyatt	423-240-5533

Livestock Insurance:

Cam Winterburn	931-309-8428
Jamie Secondino Krieger	812-208-0956

Catalog:

Kathleen Evans	334-657-5850
----------------	--------------

Sale Format:

In an effort to reduce the stress on the sale cattle and ourselves, all cattle have been videoed and will sell via TV screens in the sale barn. No animals will walk through the sale ring. As always, all cattle will be displayed live in pens the day before the sale, as well as sale day, for your evaluation.

Sale Videos:

Sale videos and pedigrees can be viewed prior to the sale at www.ckcattle.com and www.dvauction.com/video_catalogs.

Online Bidding:

Online bidding will be available through DV Auction.

To watch or bid online, visit www.dvauction.com to register and apply for bidding prior to the sale. If you have any questions or to finalize your bidding application, please call DV Auction at 402-316-5460.

DVAuction
Broadcasting Real-Time Auctions

Phone Bidding:

Anyone wishing to bid by phone during the sale may do so by contacting any of the CK Cattle family, or a member of the sale staff. Please call us several days in advance if possible, so we can line up a CK representative to handle your phone bidding.

Absentee Bidding:

If you cannot attend the sale, and prefer not to bid online or the phone, we will be glad to personally help with your order. Call Chuck, Charlie or Bradfield prior to October 27th, if possible, and give us your parameters and price range. Your bid will be handled confidentially and professionally, spending your money as if it were our own. We are happy to assist with cattle selection prior to sale day and are willing to show you the cattle by appointment anytime.

Semen Interest:

CK Cattle will retain 1/3 semen interest in every bull selling. In reality this will affect very few bulls that sell. CK Cattle reserves the right to collect semen on any bull at our expense and at the buyer's convenience. CK retains 1/3 of all the semen revenue rights for each bull. The buyer receives 100% possession.

Terms & Conditions:

Terms of the sale are cash or check and each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Announcements made from the auction block will take precedence over any printed material. Each animal will become the property of the buyer as soon as sold and will be taken care of for a reasonable amount of time after the sale at the buyer's risk. We strongly advise buyers to insure their purchases.

Guarantee:

All bulls are guaranteed to be breeders. Any bull failing to successfully breed females within 6 months of sale date may be returned to the seller if in good condition, and if accompanied by a letter from a veterinarian stating the problem. The purchaser must notify the seller of his dissatisfaction with an animal within 6 months of the sale date. Seller then reserves the right to try said animal for a period of 6 months. If at the end of that time, the animal fails to breed, a like animal will be substituted or a credit will be issued.

If a female sold as "Safe in Calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund must be made to the seller within 6 months of the date of the sale.

If a female represented as "Safe in Calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the buyer's option, refund the purchase price upon return of the animal (and calf- if applicable) to the farm of the seller. Any claim for adjustment or refund must be made to the seller within 1 year of the date of sale.

Liability:

All persons who attend the sale do so at their own risk and the owners assume no liability, legal or otherwise, for any accidents which may occur.

Hair Coat Comments

Hair coat is one of the most under looked traits in cattle, yet it makes a tremendous economic impact on cattle in the deep south. Here at CK Cattle we have been hair scoring our cattle for years to see how well they perform in our hot and humid environment. We are geographically located at the very most southern tip of the U.S. fescue belt. Cattle with hair simply struggle in our environment, which is why most of our neighbors and customers in the fescue belt use brahman influence to mitigate the dirty fescue. We feel that the most valuable time to take hair scores on our fall cows is in the late spring after they have been exposed to fescue for several months. It is this time of year we want to see our animals showing 25% or less of their winter coat.

Our calves are hair scored during the mid-summer, as we feel this is the most crucial time for a calf to be slick. At this time of year many of the calves in our area have been weaned and are being fed a grower type ration and are already battling heat stress, so any added hair at this time of year will certainly create issues in performance. We can attest to the fact that hair is directly related to performance in our operation. Years of CK data shows that calves keeping 50-100% of their hair coat will certainly sacrifice pounds to those animals that are slick.

When selecting genetics to use in our program, we will only use a bull born here at CK if his hair score was a 1 or a 2 as a calf. We have used this in our selection criteria for many years, which has given us an angus cow herd that is extremely adaptable to the U.S. fescue belt and gulf coast regions.

For the first time in our catalog the Fall 2-year old bulls have a hair score in their footnotes.

CK Hair Score Guidelines

1 0% hair (Slick)

2 Up to 25% hair coverage

3 Up to 50% hair coverage

4 Up to 75% hair coverage

5 100% hair coverage, has not shed at all. (There are no 5 hair scores in this sale)

We are very pleased to see that the American Angus Association has developed a hair shedding EPD to help both seedstock and commercial producers choose animals that respond better while grazing fescue. We have included that EPD labeled (HS) in this year's catalog.

How The Bulls Are Raised:

All bulls are born on our operation in Lowndes County AL. We have a mix of Black Belt prairie soil, which is predominantly Fescue grass, and Sandy soil which is usually Bermuda grass. The bull lots are 10 to 20 acres dominated by fescue with fence line bunks.

Our fall calves are born September thru December. We work our calves for the first time around 4 months of age. This is when we make our first round of culling the bull calves. We start by culling any excessive birth weight or calving problems and obvious disposition and quality problems. We give our second round of vaccinations about 60 days later (still on the cow), at which time we collect our weaning weights, disposition and hair scores. We fence line wean around 7-8 months of age according to pasture grass conditions.

When bulls are weaned they go into groups of 30 to 50 head and fed a high roughage ration consisting predominantly of corn silage, soy hull pellets and dry distillers grain. We strive to have our bulls gaining at or above 2.5 lbs/day. Due to the high moisture and high roughage content of our ration, coupled with the heat and humidity in our area, the bull calves that do not perform in our environment will sort themselves out.

At yearling we collect weights, scrotal, frame and ultrasound data. All yearling bulls are freeze branded in December. It is then we select the group of bulls we will be using in our program as yearlings. All yearlings used on the CK Cattle operation will be returned to our bull development program after being pulled at the end of the breeding season. These bulls will then be offered for sale at 2 years of age at our Headquarters sale. We will provide a footnote in the catalog on any bull used in our program as a yearling. We are continually culling bulls. Some Soundness and feet issues really start to appear at around 15-18 months. This is another big plus for buying two year olds bulls, as it is very difficult to see some these issues before the bulls have a chance to fully mature.

All bulls are trich tested and will have passed a bull soundness evaluation within 30 days prior to October 27 th, 2023.

From CK Calves to Finished Cattle:

In years past we have always included our feedyard performance data in the catalog. With the recent surge in feed prices and inputs we decided to construct a small feed lot and started finishing cattle here at CK. We are finishing our steers and heifers to the 1200-1400 lb range and marketing them directly to the consumer. We sell the finished animal in whole or in halves and we handle getting the animal to the processor, and we deliver the beef back to CK for customer pickup.

We are also selling finished/fat cattle to those who are in the freezer beef business that don't have enough supply on hand. We usually have animals ready for harvest at any given time during the year.

Contact Bradfield if you are interested in purchasing finished cattle from us.

We also sell beef retail cuts by the pound. Contact Kathleen or Katie if you are interested in purchasing CK beef by the pound.

Retail items include;

Lean Ground beef, Roasts, Cubed steak, Stew meat, Brisket, Steaks (limited availability)

The CK CATTLE Angus Program

The CK Cattle Angus program has strived for decades to produce bulls that work in our deep south environment. We have done this by utilizing high performing CK bulls that hit the performance metrics we need as well as meet the phenotypic criteria that we demand. These animals MUST perform in our environment! We also use proven outside genetics from sires in the breed that we feel mirror our criteria and allow us to reach maximum potential.

Chuck has had a great year serving as our Alabama Cattlemen's President.

And on the 8th day, God looked down on his planned
paradise and said, "I need a *Caretaker.*"

So God made a *Farmer.*

- Paul Harvey

*We support your role of Caretaker and
Farmer by offering a variety of land
and farm loans. Call us today!*

The CK CATTLE Chiangus Program

Our Chiangus Cattle are a composite breed made up of Chianina and Angus. These animals all have different percentages of Chianina, but most of our bulls will have between 5-25% Chianina and the balance is angus. We let our environment select that range for us as we don't select for a specific percentage.

These cattle are multi generation Chiangus. You may have to go back 30 years or more to find a fullblood Chianina animal in many of their pedigrees. Our Chiangus bulls tend to have a slicker hair coat and a more muscular type than the angus bulls. These bulls also show a longer growth curve in their calves, meaning they continue to gain and grow muscle at the feedyard level. That is why we continue to breed Chiangus- ADDED VALUE for the commercial cattlemen.

Birth Weight Comments:

Birth weight is one of the most discussed performance items to potential bull customers. Due to that, I am going to go into detail about my opinions on that subject. First of all, here at CK we actually weigh all of our calves and turn in actual birth weights. I repeat, we actually weigh them. This is the most difficult weight to get and the most important weight to get right. To get this weight, you must collect it within 24 hours of birth, catch the calf while avoiding a protective mother and be able to physically pick up and weigh the calf. We use scales that are accurate to the pound, so there is no guessing.

Birth Weight is also very relative to time of the year. Due to that, here are our opinions on that subject. Birth weight is affected by temperature with calves born in hot weather tending to be born light and colder weather calves being heavier. This is probably due to length of gestation and more blood flow to fetus in cold weather. The calves born here in late September and October are always lighter than the calves born in November and December. The February and March calves will trend heavier.

We have found that the heavier the birthweight on our calves, the heavier the weaning weights we are recording. We are utilizing heavier birthweight bulls on mature cows only, and it has not had any effect on our calving - Added pounds means added profit. We have found that with heifers increased birth weight has created more issues at calving. That being said, added BW in mature cows is not generally a problem, but calving ease bulls on heifers is recommended. Take these considerations in mind as you make your bull selection. Remember, birth weight is more important in heifers, so use the Actual Birth Weight and Birth Weight EPDs of the bulls to make your selection.

Lot 136 - CK RAINMAKER G607K

One of the many great things about the seed-stock cattle industry is you make great friends from all over the country. Unfortunately, 2 of our longtime great friends passed away recently.

John Woodruff from Lebanon, Tennessee and Roger Deiter from Faulkton, South Dakota will be greatly missed.

Our prayers go out to their families.

John was a regular attendee at our sale. Here he is, pictured far right, at our 2022 Sale with Katie and some of our Kentucky friends.

For the past 27 years we have leased a place that joined us. It is very convenient to us and is a strong asset. You can tell that at one time it was quite an operation.

The family that owns it is the family of M C Stallworth, who also was the President of the Alabama Cattlemen's Association in 1954. (The year I was born!) He was a pioneer Brahman and Quarter Horse breeder. His grandson, Monte Stallworth, came by for a visit and sent me this remarkable picture of him.
